CAN OUR DEMOCRACY BE SAVED??

Are we on the cusp of losing our democracy?? As Ronald Reagan famously stated, “Freedom is never more than one generation away from extinction. It has to be fought for and defended by each generation”. As Marco Rubio so eloquently stated in his recent speech in Athens, we are at a crossroads, "Because the next decade and the decisions we make will write the story of the next century".

While we complain about the high cost of gas, the possibility of actually losing our freedoms looms in front of us. **The current midterm elections will determine the direction of our country.** Should the Democrats win either the Senate or the House, they will be at odds with the Trump administration, and the incredible progress and accomplishments of the Trump administration over the last two years will be lost.

Should the Democrats win, they have promised to re-open our borders to millions of immigrants that have no allegiance to this country. They have also promised to dismantle ICE, to defund the police, to allow men in women’s sports, to shutdown independent healthcare as they institute their “Medicare for All” plan, to impeach Trump and members of his cabinet and administration, to increase the number of justices on the Supreme Court in order to ensure a heavily liberal majority, to eliminate the electoral college, and to make liberal Puerto Rico and Washington D.C. states in order to ensure a Democrat majority in both the House and the Senate for decades to come. Unbelievably, this is just a partial list of what they have promised to do.

With the addition of the DSA in their ranks, the list becomes even more ominous, as the DSA agenda promises to eliminate our constitutional democracy and replace it with a socialist/communist government by eliminating the Senate, the presidency and the Supreme Court and replacing it with one legislative body that would choose the executive and judiciary. Thus, our three branches of government, established by our founding fathers to ensure the separation of powers and establish a system of checks and balances to guard against tyranny, would be eliminated.

The recent pronouncement by Democrat Senator Elissa Slotkin was a red flag to the sanctity of our political system when she blatantly stated that should the Democrats win the midterms, that prosecuting Trump administration officials would deter anyone from

joining the administration. Republicans consider her comments as seditious intimidation and a threat against those considering careers in government under Republican leadership. It is unbelievable that an elected official of our constitutional democracy would make such a threat. As stated by many Republicans, this threat by a Democrat is the true definition of "political terrorism".

Can You Believe It?? YES!!!

The choice is ours. As Ronald Reagan famously warned, “Freedom is never more than one generation away from extinction”. **We must participate by voting** and volunteering our time and effort to ensure that the Democrats and their DSA brethren do not gain power and destroy the freedoms and promises of our Declaration of Independence of “life, liberty and the pursuit of happiness”.
