### CAN YOU BELIEVE IT ?????

Monday, January 5, 2026| Vol. 5

With the capture of Nicolas Maduro, the announcement by Tim Waltz that he will not seek re-election, and the censure and possible demotion of Mark Kelly by the Pentagon, it has been a whirlwind of news these last few days. We can hardly wait to see what's next!

Nicolas Maduro, the unelected President of Venezuela, is a vicious narco-terrorist. Tim Waltz, Governor of Minnesota, oversaw the massive fraud for years in the State of Minnesota. And, Mark Kelly, a Captain in the U.S. Navy and a sitting U.S. Senator, produced a seditious video encouraging members of the U.S. military to stand down when receiving military orders from the President of the United States. The President of the United States is the Commander in Chief of the military; thus, publicly releasing such a video worldwide was not just a seditious act, it was considered by many as traitorous.

#### NICOLAS MADURO THE UNELECTED PRESIDENT OF VENEZUELA CAPTURED BY THE U.S. MILITARY

The capture of Nicolas Maduro, a narco-terrorist who not only terrorized his own country, but endangered the citizens of the United States, was truly a sight to behold. The precision of our military in conducting such an operation, and their unbelievable bravery, was on full display for the world to see.

It should be noted that in 2020 during Trump's first term, Maduro was indicted on drug and narco charges and a reward of \$15 million was offered for information leading to his arrest. During Biden's term, that reward was raised to \$25 million. Thus, the action by Trump to actually capture and arrest Maduro is not an illegal act. And as stated repeatedly by the news media, this action is no different than the indictment and conviction of the former unelected dictator of Panama, Manuel Noriega, who spent 20 years in U.S prisons for drug trafficking, money laundering and racketeering, and was extradited to France and convicted of money laundering. Noriega eventually died in prison in Panama after his extradition from France.

One more issue relating to the Chavez/Maduro reign should be mentioned in this article. In 2007, Venezuela nationalized the oil industry and seized the assets of Exxon, Chevron, and all other petroleum companies operating in the country. Although Exxon did win a \$1.6 billion settlement in an international arbitration case, to date Maduro and Venezuela have disregarded the settlement. Chevron is the only company that continues to operate in Venezuela, although such operation is licensed by the U.S. and considered minimal.

To those who scream that Trump captured and arrested Maduro for Venezuela's oil, according to a former President of one of the Chevron companies, and a friend of EVRWP, "the world doesn't really need more oil now or in the near future so I see nothing really changing until a new democratic government comes in and is seen as stable". Here, here.

***And guess who condemns the capture and arrest of Maduro and sides with Russia, China, Cuba and Iran in such a condemnation. You guessed it! Our own California Democrats, including Eric Swalwell, Adam Schiff, Raul Ruiz, Mark Takano, Judy Chu, Pete Aguilar and others, along with AOC and Mamdani! Can you believe it??? YES!!***

**GO TRUMP!!**

**THE PENTAGON MOVES TO CENSURE  
AND DEMOTE MARK KELLEY FOR ILLEGAL ORDERS VIDEO**

As reported today, Secretary of War Pete Hegseth said Sen. Mark Kelly, D-Ariz., will receive a formal censure letter and review of retirement rank and pay from the Pentagon following 'seditious statements' that undermined military operations.

Can you just imagine if our brave military, who conducted the Venezuelan operation to capture and arrest Maduro, followed Mark Kelly's directive to defy orders of their commanders since in the **opinion** of Democrats it was illegal? The operation would have failed.

And what was Kelly's response to the censure letter? He "fired back by calling the move outrageous and "unAmerican". So the man who publicly released a video worldwide encouraging the U.S. military to defy its chain of command and thus undermine military operations has the nerve to call our brave men in the military who risk their lives "unAmerican"? **It is he who is "unAmerican".**

**Can You Believe it? YES!!!**
