

CA Democrats Seek Repeal of Prop 13

Save Prop 13 and Stop 8 Costly Tax Hikes in 2026

>> CONTRIBUTE: Save Prop 13 & Stop 8 Tax Hikes in 2026

Tax Day 2026 is today in California – with our state taxpayers paying the HIGHEST tax burden in the nation!

It's not just tax rates that hurt Californians. A recent study by the Transparency Foundation shows a typical family of four in California is forced to pay a “California Cost-of-Living Penalty” of over \$29,600 a year in higher living costs due to taxes, mandates, regulations and fees imposed by politicians.

But CA politicians face a massive budget deficit – and instead of cutting their wasteful spending and stopping massive losses due to fraud, they propose to increase the cost of living on all Californians through new taxes and fees.

At the top of their price-gouging list are their proposals to raise taxes by repealing Prop 13 in 2026 and imposing 8 costly new tax hikes!

Repeal of Prop 13 Would Cost Taxpayers \$20 Billion or More

The “Split Roll” Property Tax Initiative would repeal Prop 13 on a variety of properties and lay the foundation for the complete elimination of all Prop 13 property tax savings for all homeowners. Voters have repeatedly rejected the “Split Roll” Initiative – but Democrats are expected to put a false and misleading title on their ballot measure to try to fool voters into approving it in the 2026 election.

If Prop 13 were repealed in 2026, the average CA homeowner would see their property taxes increase by \$3800 a year – with some homeowners seeing a much larger spike.

Reform California is fighting back – but we need you!

**We need YOUR help to win this fight to protect
Prop 13 and block 8 new tax hikes in CA in 2026!**

Going on Offense to Pass 3 Tax Reform Initiatives in 2026

In addition to opposing the Split Roll Initiative proposed by Democrats, Reform California and a coalition of groups are working on another fight to qualify and pass three tax reform ballot measures in the November 2026 election:

- The ***Save Prop 13 Initiative*** restores the two-thirds vote requirement for local tax hikes and completely eliminates the crazy new "Property Transfer Tax" scheme many localities are now imposing.
- The ***Stop the Savings Tax Initiative*** prohibits any tax on the value of your assets such as property, savings accounts, retirement accounts, investments, etc. and also prohibits the imposition of retroactive tax hikes.
- The ***Audit Special Taxes Initiative*** makes it harder for politicians to impose new special tax assessments and requires audits of any programs that receive special tax revenues.

Passing these powerful ballot measures will be a GAME-CHANGER to give all California taxpayers billions in relief from our state's crushing tax burdens.

Unfortunately, California politicians have a substantial funding advantage and are trying to defeat these three ballot measures! We need immediate resources to build out statewide grassroots campaign to win in November!

On this Tax Day 2026, can you contribute to the fight against higher taxes in California by chipping into this crucial campaign?

8 Massive Tax Hikes California Democrats Want

1. Property Tax Hikes/Prop 13 Repeal: Politicians have gutted Prop 13 and want to fully repeal it with their Split-Roll Initiative – with their ultimate goal of increasing your property taxes on your home to *today's* assessed value! If that happens, the average homeowner will end up paying \$6500-9000 more in property taxes annually.

2. Savings Tax: Politicians want a new tax on your personal savings and investments.

3. Mileage Tax: Politicians are proposing a 6-cents per mile tax costing an average of \$900 per driver per year!

4. Sales Tax Hike: We are tracking over 250 local sales tax hikes and now state politicians are looking a statewide sales tax hike. Soon every city will be at 10-11% sales tax rate for every item you purchase.

5. Healthcare Tax: Politicians propose to double California state taxes to fund government-run healthcare – costing average of \$16k per household per year.

6. Utility Tax: Politicians want to impose massive "flat rate charges" on all utility bills - charging you no matter how much energy you use.

7. Gas Tax: The gas tax is set to automatically increase July 1. You currently pay \$1200 a year in car and gas taxes.

8. Exit Tax: And if you finally decide to move from California because of these costly taxes, state politicians want to force you to pay an exit tax for up to 10 years after you leave

If you are sick of the constant tax hikes in California, join us and fight back:
